MEGNA POOLS — 30 GA LINER FASHIONS

2025

Committed to Quality Products & Services

MEGNA POOLS is a company originally established in 2004 by a group of pool industry professionals who each had been in the business for over 20 years. They gathered around them a group of employees who also had up to 20 years in the pool industry. Most had worked for a pool company which had its' roots in a Canadian company which started out in 1967 and grew to be one of the largest manufacturers of swimming pool liners and kits, with plants across North America. They grew with the company through three takeovers, all finally departing shortly after the third takeover, to form their own company committed to quality products and quality service.

MEGNA POOLS prides itself on providing direct personal service to our customers, along with only the best products in the industry. MEGNA POOLS is an innovator in the industry, bringing many unique and patented products to the marketplace.

MEGNA POOLS is now one the largest fabricators of inground steel pool panels and kits, and vinyl swimming pool liners.

Vinyl Swimming Pool Liners

MEGNA POOLS swimming pool liners, both inground and above ground, are made from the finest vinyl available world-wide. The vinyl is specifically formulated for long term use in swimming pools. It features excellent physical properties to resist tearing and puncture, cracking at low temperatures, UV degradation, fungus growth, algae growth and chemical bleaching.

MEGNA POOLS uses computer aided design (CAD) to custom design each pool liner to the exact specifications of your pool. We then use a patented rotary cutting machine to cut the pool vinyl for each swimming pool.

MEGNA POOLS employs reliable and durable high-frequency molecular welding machines to bond the vinyl into the shape of your swimming pool. This is the strongest and best method to create long lasting swimming pool liners.

MEGNA POOLS offers the widest selection of swimming pool liner fashions, in three series. Premier Series liners are liners designed to compete with 20 mil liners. All our Premier liners are thicker than the standard 20 mil liners, yet cost no more. Our 30ga Series of liners are our thickest liners and are our best and longest lasting liners. MEGNA POOLS also offers the most unique way to choose a liner – Mix n Match! Offered exclusively you can choose one of 7 different tile patterns and match your choice to one of 7 different wall/floor patterns. Create your own unique pool liner fashion – just for you!

Water Colour Selector

Lets make choosing your liner an enjoyable experience! The colour of your pool is determined by the liner you choose. Our “**Water Colour Selector**” will help you visualize what your pool will look like when water is added.

*High Frequency Molecular Welding is
Stronger than invisible style seams!*

Do you see the seams?

MEGNA POOLS uses reliable and durable high-frequency molecular welds in the fabrication of all our pool liners. This process has been used in the industry for over 50 years and has proven to be the best and longest lasting method of sealing swimming pool vinyl. A high frequency molecular weld produces a seal stronger than the material itself!

Pool liners are fabricated from roll material, seaming of the material is required to fit the custom shape of each swimming pool. Seams may be visible upon close inspection of finished pool liner, however from normal viewing distance under water, seams do not usually distract from the overall appearance of the swimming pool. In order to ensure proper and long lasting seams, a slight extrusion of material is normal, this indicates that both pieces of material have been completely fused together, forming a joint which is stronger than either piece of material alone.

You can have confidence that a MEGNA POOL liner is made to last!

Experience

Each MEGNA POOLS product is custom made by craftsmen each with over 30 years experience in the swimming pool industry. Attention to quality is our #1 goal. We don't check a product once it's made — by then it's too late! Instead we build quality into every step of the process.

Quality

We buy only the best materials available. Where possible we source our product from local suppliers. Buying domestically means we support jobs for our customers. Our craftsmen are extensively trained to ensure we make only the best products!

MIX-N-MATCH

Create your own Unique Pool Liner

You, your family and your backyard are unique — your pool liner should be too. Decorate your pool with our Mix-N-Match liner approach. Choice has become a thing of the past — Now you can create!

MEGNA POOLS has created seven unique pool liner tiles which can be matched with one of five wall and floor patterns or with solid blue or solid white. Mix-N-Match the tile and floor patterns until you find your own perfect match! MEGNA POOLS will then custom fabricate your unique liner pattern just for you.

Tile Pattern

The tile pattern is the top part of your liner. It wraps around the entire perimeter of the pool and ends a few inches beneath the water line.

Wall / Floor Pattern

The wall / floor pattern continues at the bottom of the tile pattern. It covers the remaining area of the walls and the floor of the entire pool.
